## PRESIDENT QUITSPARK

Participates in a Cornerstone Laying at Northern Entrance.

## GIVEN WATCH CHARM

Chief Executive Speaks of the Wonders of Yellowstone Wilderness and the Enjoyable Two Weeks He Has Spent.

Gardiner, Mont., April 25.—President Roosevelt Friday morning resumed his tour. Before going, however, he participated in the laying of the cornerstone of the new gate at the northern entrance to Yellowstone park. The ceremony was performed according to the Masonic ritual, and was in charge of the grand officers of the state of Montana. Special trains brought hundreds of people, including a large body of Masons, and as the weather was perfect the scene was a pretty one.

The president rode down from the post accompanied by Major Pitcher and was escorted to the gaily decorated stand, where he delivered an address. Troops G and F of the Third cavalry from Fort Yellowstone were drawn up in front of the stand as guard of honor. Frank E. Smith, grand master, conducted the services assisted by Deputy Grand Master So. Heppner, and Grand Senior Warder Lew Calloway. The president, on behalf of the Masons of Montana, was presented with a Masonic charm mounted on a nugget of Montana gold.

The president began his address by thanking the people and the soldiers for his enjoyable two weeks' holiday and then spoke of the natural wonders of the park.

"The Yellowstone park," he said, "is something unique in this world. So far as I know, nowhere else in any civilized country, is there to be found such a tract of veritable wonderland made accessible to all visitors, where at the same time not only the scenery of the wilderness, but the wild creatures of the park, are scrupulously preserved, the only change being that these wild creatures have been so carefully protected as to show wonderful tameness. The creation and preservation of such a natural playground in the midst of our people, as a whole is a credit to the nation, but above all, a credit to Montana, Wyoming and Idaho. It has been preserved with wise foresight. The scheme of its preservation is noteworthy in its essential democracy. This park was created, and now is administered for the benefit and enjoyment of the people."

## MORE SPEECHES.

Editor Daniels and Chancellor Kirkland Address Editorial Conference.

Richmond, Va., April 25.—At the educational conference there was an address by Josephus Daniels, editor of the Raleigh News and Observer, and a member of the National Democratic committee from North Carolina. He said that there have been four obstacles to educational progress in the south: One, the negro enfranchisement against the protest of the people who were forced against their will to pay taxes to educate him.

Second, poverty, grinding poverty following war and reconstruction, such as this generation knew not of.

Third, the lack of qualified teachers and the lack of inducement to capable men and women to become teachers.

Fourth, general physical difficulties. He took a hopeful view as to overcoming all these obstacles. The last speaker was Dr. J. K. Kirkland, chancellor of Vanderbilt university.

## SEEN NO MORE.

Declaration of Independence Will Be Kept in a Great Fireproof Safe.

Washington, April 25.—The Declaration of Independence will be seen no more in public. An order has been issued that henceforth the historic manuscript shall be kept under lock and key in a great fire and lock-proof safe. The Declaration will never be exhibited again at any of the great international affairs. This decision was reached as the result of an examination of the document by a committee of the American Academy of Sciences now in session in this city, who acted at the instance of Secretary Hay, whose attention was called to the state of the famous document by Andrew Allen, librarian of the state department. Most of the text of the Declaration is still legible, but only one or two of the signatures can be made out.

## In Hands of Attorney General.

St. Louis, Mo., April 25.—Lieutenant Governor Lee says that the question of his resignation is in the hands of Attorney General Crow and that he will probably do as that officer recommends. Lee says, however, that he has reasons for wishing to retain his office. One of these, he says, is that he is a poor man and needs the salary attached to the office. The lieutenant governor was before the St. Louis grand jury an hour and fifteen minutes. He was expected to testify especially as to the \$1000 given him as bribe money by D. J. Kelly, the legislative agent of the baking powder trust.

## PROTEST IS PROBABLE

Three Nations Not Pleased With the Action of Russia.

## MANCHURIA MATTER

It Is Contended That the Position Assumed by the Czar Is an Absolute Breach of All Undertakings Given.

London, April 25.—The Associated Press has learned that there is in contemplation a forcible joint protest on the part of Great Britain, the United States and Japan against the Russian demands in the matter of the sovereignty of Manchuria.

Sir Ernest Satow, British minister to China, in a dispatch to the foreign office confirmed the synopsis of the note addressed to China by M. Platon, Russian charge d'affair, now at Peking. Further official advices regarding the intentions of the Chinese government and explanations from St. Petersburg are awaited anxiously.

In the meantime the British government is not taking active measures, although Foreign Secretary Lansdowne intends to circulate papers looking to joint action from Washington, London and Tokio, provided further information sustains the present abstraction of the Russian demands.

The Associated Press is authorized by the foreign office to say that if the Chinese government correctly represents Russian claims these claims constitute an absolute breach of all the undertakings given in connection with Manchuria and utterly abrogate the principles of the open door, territorial division and international comity to which the British government constantly and publicly has committed itself. It is added that in these principles Great Britain has always acted with the United States and it is presumed that similar feelings exist at Washington. Nothing, however, is definitely known, as, with the exception of the British minister to China, no British ambassador has as yet reported.

It is pointed out that Russia's explanation may throw a different light on her demands, although in official circles here there is a frank expression of the belief that Russia has no intention of evacuating Manchuria and that she hopes after demanding the maximum to secure a compromise.

## CONFERENCE RECEIVED.

London, April 25.—Viscount Hayashi, Japanese minister here, received a telegram from the government at Tokio fully confirming report of Russian demands regarding Manchuria. The minister expressed the opinion that they were entirely opposed to the policy of an open door, but added he is not yet in position to say what action will be taken by interested powers.

## SAW HAY.

Japanese and German Ministers Held a Conference With the Secretary.

Washington, April 25.—Japanese Minister, Mr. Takahira, and Baron von Sternburg, German minister, called upon Secretary Hay and it is believed the Manchurian question was discussed. Secretary Hay has no advices from St. Petersburg or London, but expected he would shortly hear from the latter capital through the ambassador here.

These conferences and exchanges are all preliminary to the preparation of the protest, which is to be made against Russian demands, but it is not clear what form this will take. The protest, however, must be directed, not to Russia, but to China, who would be warned that the nations which sign the protest will not look with favor upon any action by China that will alienate Chinese territory or will confer special advantage upon any nation (meaning Russia) over others. The tone of the press advices from European capitals have done much to depress officials here, who labored so long to preserve the integrity of China. It begins to appear to them that Manchuria is hopelessly lost to China, and the best that can be done now is to save as much as possible from the wreck, and therefore an effort will probably be made to secure from Russia a binding promise that the powers will not be entirely deprived of the right to exploit Manchuria commercially.

## WERE RESISTED.

Efforts to Expel Members of Religious Orders Cause Trouble.

Paris, April 25.—Disorders have been reported from various points in connection with the expulsion of members of congregations who remained in France. At Versailles a police magistrate attempted to close the Capucine establishment and a crowd of about 500 persons drove him from the building. The police then occupied the surrounding streets and dispersed the demonstrators. The most serious disorder occurred at Nantes, where mounted gendarmes were forced to charge several times to scatter a crowd of some 2000 persons. Twenty-three arrests were made, Marquis de Dion, member of the chamber of deputies from Loire-Inferieure, being among those apprehended.

The person who neglects to provide for a "Rainy Day" neglects the first duty. Every practical thinking man realizes that it is a duty he owes to himself and his family to save a portion, however small of his earnings. A saving account opened early in life and systematically kept up, will in time afford the means to grasp business opportunities. It will help to buy a home, provide in time of sickness and insure a competency and the comforts of life in old age. ## KILLING AT WILLOW HOLE

SAM CASEY, A PROMINENT CITIZEN OF MADISON COUNTY, KILLED NEAR HIS HOME AT WILLOW HOLE, YESTERDAY.

News reached Bryan yesterday of the killing of Sam Casey, of Willow Hole, Madison county, at about the hour of 7 o'clock yesterday morning. A negro, whose name was not known to the gentleman reporting the tragedy, is said to have done the shooting, and has been arrested and lodged in the Madison county jail. The negro was traveling with a party of Hill county cattlemen. The shooting was done with a Winchester.

Mr. Casey was stalled at a point on the Madisonville road about a mile east of Willow Hole, being on the road with a wagon. The negro, driving a wagon, overtook him, and was asked for help. The killing grew out of the ill feeling that resulted from the conversation that ensued. The killing occurred a mile away from the place where the parties first met. The negro was wounded, supposed by the Eagle's informant to have been shot by Casey. Another report was heard that the negro shot himself. It is said that the negro's wound is not serious.

Mr. Casey was in Bryan Friday, and left Friday noon for his home, near Willow Hole. He was a prominent citizen of his county, and held the offices of county commissioner and justice of the peace at the time of his death.

The Carnegie library board met Friday night and elected Miss Lillie Willson librarian for a term of two years at a salary of \$400 per year. Of the \$1000 appropriated annually by the city council for the maintenance of the library, \$500 was set aside for the purchase of books and \$500 for contingent expenses.

Gen. H. B. Stoddard, Sam R. Henderson, Judge W. G. Tallafiero, M. Nagle, G. B. Abercrombie, and C. L. McCoy went out Friday to look at the Adkins mound oil land on the Navasota river. The land was surveyed by Messrs. Nagle and Henderson. The prospects for oil on this property appear to be good.

## MYSTERY ENDS.

Missing Husband and Father Found After Thirty Years' Absence.

San Jose, Cal., April 25.—A romantic story developed and thirty years' mystery made clear by means of a letter received by the San Jose Mercury from Frank J. Martin, a member of the editorial staff of the Philadelphia Public Ledger, who wrote making inquiries regarding his father, who in 1872, was a prosperous farmer and in February of that year went to Baltimore, with a large consignment stock, which he disposed of, after which all trace of him was lost.

It was believed that he had been murdered, and after seven years his considerable estate was probated and distributed. For some years the supposed widow was granted a pension, the missing man having served as a soldier in the Civil war, at the time of his discharge being lieutenant colonel of the Seventy-third Ohio volunteers. A few weeks ago Mrs. Martin learned that John F. Martin applied for a pension from San Jose, which led the son to write to the Mercury to investigate the case. Martin was found without difficulty, as he has resided here since last June. He readily admitted his identity and defended his course in abandoning his wife and four young children by the statement that there was an insufferable difference of temperament between himself and wife. He said he would write to his son.

## Bible Society's Report.

New York, April 25.—The American Bible society's annual report of the Levant agency has been made public. The report says the agency has been subjected to harassing influences, due to political and social conditions in the east. In Macedonia the movements of colporteurs have been restricted and they have gone about only at the risk of personal danger. The demand for the Bibles is increasing in the Levant agency, and attention is called to the marvelous changes in the hearts and lives of ignorant, superstitious people made by mission schools in Palestine and Syria.

## Horribly Mangled.

Lexington, Ky., April 25.—William Florence of Stanford was horribly mangled by the explosion of a stick of dynamite, which he carried in his pocket while at work for the East Tennessee Telephone company. The young man carried it about the neck of an electric battery, and it is supposed in some way the dynamite fuse came in contact with this and was charged with electricity. His left side was blown away and he died instantly.

## Baer Testifies.

New York, April 25.—President George F. Baer of the Philadelphia and Reading Railroad company was the chief witness Friday when interstate commerce commission resumed its hearing on the complaint of Wm. R. Hearst against the antitrust coal carrying roads. President Baer testified that he was president of so many companies he could not remember the names of them all.

## To Draft Amendments.

London, April 25.—A meeting of Nationalist members of parliament, in the house of commons, appointed a committee of twelve to draft amendments to the Irish land bill in accordance with the resolutions of the Nationalist convention, recently held in Dublin. John Redmond is chairman of the committee. Among the members are John Dillon, William O'Brien, T. P. O'Connor and Edward Blake.

## Shamrock Leaves Southampton.

## REVIVAL SERVICES.

Results of Meeting at the Methodist Church—Special Music Today.

The meeting at the Methodist church has grown steadily throughout the week in attendance, interest and spiritual power, and with the impetus gained important practical results in the salvation of souls will unquestionably follow. The church has been greatly revived and the results to date are highly satisfactory.

The services yesterday were fine and testimony was given outside of the pulpit. "The Limitless Extent of God's Love" was the subject of the morning sermon, and at night the evangelist talked to the young people on "Religion as a Fortune to the Young." His text was "I counsel you buy of me gold tried in the fire." Services will be held this morning at 11 and tonight at 8 o'clock with a special meeting for young people at 3 p. m.

There will be special music at the services today and tonight. Mr. Doyle, who is doing such good work with the choir, will have a quartette here from Navasota.
